

## **BATHTUB CRATING AND PACKING INSTRUCTIONS**

1. Wipe the bathtub with a soft cloth to remove any surface dirt prior to packaging.
2. Cover the bathtub with a protective foam and bubble wrap from all sides. Make sure the top rim is covered with protective foam so there are no uncovered edges.
3. Place the covered bathtub on the base of the transportation crate.

4. Carefully secure the bathtub to the crate with fastening belts to protect it from tipping while in transit. Use card board in between the belts and the bathtub to avoid any scratch marks.
5. Assembly the sides and the top of the transportation crate.

6. Use tightening belts to seal the bathtub from the outside.

7. Please clearly mark on the waybill:

**“FRAGILE - DON'T DOUBLE STACK. DON'T TILT OR DROP!”**

## **IMPORTANT**

- Packages received without adequate packaging and without crate will be refused and returned to the sender!
- All damages, cleaning and repair costs will be assessed to the sender.
- No credits will be issued for trashed or damaged returned products.
